## SOCIETY BUD SUES WEALTHY INDIANAN

Charges Cruelty by Husband—Latter Alleges Misconduct by Wife.

ATLANTA, July 27.—Studied cruelty by the husband and unconventional conduct by the wife are the feature charges in the divorce and alimony litigation between Mrs. Fannie Manley Hawkins, 17-year-old Atlanta society girl, and Morton S. Hawkins, Portland, Ind., millionaire, hearing upon which began here yesterday.

Mrs. Hawkins met her husband in Europe in 1921, according to her petition, and they were married February 11 in Atlanta.

Charges "Don't Care" Attitude. She said he assumed a "don't care" attitude soon after they heard a boat to honeymoon in the Bahamas, but Hawkins answers the charge with the declaration that the only case his wife really has is that he "picked his teeth in public."

Mrs. Hawkins complains in her petition that, although her husband, 41 years old, is worth a million dollars and owns a \$75,000 yacht at Daytona, Fla., he refused to pay her the \$600 a month allowance he had promised her.

Hawkins, who is a member of the Hawkins Mortgage Company of Portland, answered his wife's petition with several citations of alleged misconduct by his wife. He said he was shocked to learn that his wife was not the Sunday school teacher he had been led to believe she was, but instead "a social butterfly whose ideals were far different from what he was led to believe they were."

"Humiliated by Her Infidelity." Mrs. Hawkins, her husband asserted, "swore at Jacksonville and cursed at Miami" on one occasion, "humiliating him by an 'outburst of profanity' when her dress became entangled as she was alighting from a cab."

Mrs. Hawkins also drank numerous highballs, according to her husband.

Hawkins asserts he was illegally served with the papers in the suit when a deputy sheriff boarded a train on which he was returning to Indiana and served him as soon as the train arrived on Georgia soil.

## Madison County to Hold Centennial Celebration

ANDERSON, July 27.—On July 1, 1923, Madison county will be 100 years old, but the residents don't intend to wait that long for a celebration. They have decided that during the county free fair, to be held Aug. 29 to Sept. 1, they will commemorate the centennial of the county's existence.

The 14 townships will be invited to co-operate in the preparation for the celebration. Historical relics will be brought in and displayed in a centennial tent at the fair. Hundreds of invitations will be sent to former residents of Madison county to return and make the affair a homecoming and all of the old settlers still living within the county are expected to turn out for the birthday.

## Bridge Through Which Truck Crashed Is Being Repaired

INDIANAPOLIS, July 27.—Officials of the state highway commission are rushing work on repairs to a bridge over Whitewater, on State Road No. 39 at Metamora, which was badly damaged by a truck breaking through the structure recently. The accident which damaged the bridge, engineering to W. J. Thius, chief bridge engineer of the highway department, was very peculiar. A 5-ton truck enroute from Chicago to Cincinnati with a capacity load of varnish, broke through the bridge floor but was prevented from falling into the stream by catching on a pier of the structure.

The accident at this bridge, officials said, should serve as a warning against the overloading of trucks used in hauling over state roads.

Goodrich of Indiana, for his donations to the starving Russian people was published in a Russian paper, "Our Way," in the city of Velikie Looky, government of Pskoff, district of Vitebsk, and received at the office of the American Relief administration, 42 Broadway, New York.

"Let these lines express our gratitude to the generous men who, living far from here in the richest republic beyond the sea do not sit down on their golden socks, but are ready to assist us in our great calamity—the famine," the editorial reads. "Persons who send personal packages fulfill their duty to their relatives. But those who pay for general relief food are fulfilling their honorable duty to the whole of suffering humanity. The first are praiseworthy but the latter are to be glorified and honored."

"Having received the names of the most liberal donors to the Vitebsk branch of the American Relief administration we feel it our agreeable duty to publish them with a feeling of genuine gratitude. They are J. P. Goodrich of Indiana and Mr. William Glenn of Maryland. Let the knowledge that their generous deeds are adequately appreciated here in Russia be the reward of these honorable men."

## Our alarms are much more numerous than our dangers, and we suffer much oftener in apprehension than in reality.

### THE "MOTHER OF MEDICINE"

Isis, the Queen and afterwards the Goddess, was called the "Mother of Medicine." In ancient Egypt, centuries before Christ, women were skilled in medicine. They knew the great value of medicinal plants. Hippocrates, the "Father of Medicine," many centuries later, knew less of the merit of vegetable drugs than did the women of ancient times. Lydia E. Pinkham, nearly fifty years ago, gave to women her Vegetable Compound, now known everywhere as Lydia E. Pinkham's Vegetable Compound. This is a woman's medicine for woman's ailments, prepared from medicinal plants.—Adv.
